Education & Training activities in the EU Polar Cluster

... and with more EU Projects, more E&T activities to come....!

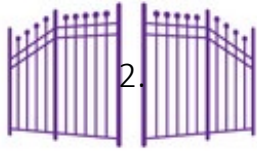

Task Group Education & Training identified 3

Gateways to/for Education in EU Polar Cluster

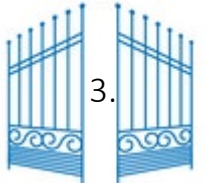

Virtual

Webinars, online courses

In-person & on-site

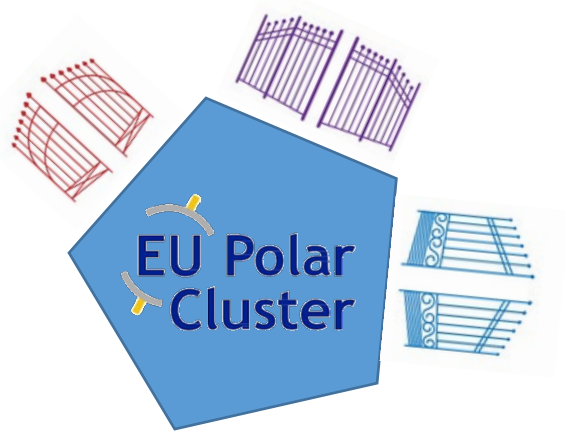

Schools, trainings, field courses, workshops at conferences

Materials

educational material, field guides, factsheets, videos ...

How can EU Polar Cluster help?
Early information, linking, announcement, sharing, reporting...

Questions for the discussion:
How does EU Polar Cluster collect information in general?
How is information distributed? Website, Newsletter (interval?)?

ARICE Training plans for 2021

Online Technical Training Programme

Are you looking to bolster your skills for working on a research icebreaker? The online technical training series organized by the Arctic Research Icebreaker Consortium and the Association of Early Polar Career Scientists may be what you are looking for! Exciting training modules taught by experts looking to share their knowledge and experience are waiting for you in March and April of 2021.

You can learn about marine robotics, the challenges of atmospheric measurements, how to manage workshop in a laboratory when it's moving and best practices in technical science support. The

All workshop materials will be available online on the APECS

About Task Groups Projects Partners Events Calls

Education Task Group

Education and Training

Lead by Josefine Lenz, APECS, Germany (josefine.lenz@awi.de) and Katharina Beckmann, Lund University, Sweden (katharina.beckmann@nateko.lu.se)

Scope of group:

- Sharing experience
- Knowledge exchange
- Linking networks
- Funding

Gateways for education:

- Virtual, online, webinars, online courses
- In-person and on-site: schools, training, field courses, workshops
- Materials: educational material, field guides, factsheets and videos

Specific training activities - upcoming:

- ARICE Online Technical training - six sessions 30th March - 14th April 2021 <https://www.apecs.is/research/apecs-projects/arice/online-technical-training.html>

Specific training activities - past:

- KEPLER ECR workshop <https://kepler-polareu/2021/02/15/kepler-ecr-workshop/>

Education Task Group project contacts:

www.arice.eu

Online Technical Training Programme

March/April 2021

Marine Robotics

30 March, How to Build a Sea Robot
12 April, Polar Marine Robotics

Atmospheric Measurements

13 April, Atmospheric Measurements Aboard Research Ships

Mooring Operations

13 April, Mooring Operations in Polar Waters

Lab Management

14 April, Lab Management: My Lab is Moving!

Technical Science Support

14 April, Technical Science Support at the British Antarctic Survey

Collaborative Events

The EU Polar Cluster work together to increase our impact, minimise travel, and engage a wider range of stakeholders.

Upcoming events

- ASSW events:
 - Combined ARICE, INTERACT, Blue Action, FARO session 23rd March - how to share best practice for transnational access.
 - KEPLER workshop Saturday 20th March 14:30-18:30
- ARICE Online Technical training - six sessions 30th March - 14th April 2021 <https://www.apecs.is/research/apecs-projects/arice/online-technical-training.html>
- EPB ASM₃ webinar 5: Theme 3, Respond: Sustainable development: Evaluation of vulnerability and resilience: Application of knowledge 17 March 2021, 13:00-15:00 UTC
- ARICE technical training with APECS <https://apecs.is/research/apecs-projects/arice/online-technical-training.html>
- EPB ASM₃ webinar 6: Theme 4, Strengthen: Capacity building; Education; Networking; Resilience - prepare the next generation 07 April 2021, 13:00-15:00 UTC
- EPB ASM₃ webinar series: Closing webinar - Post-Ministerial Review: Joint Statement and Actions 09 June 2021, 13:00-15:00 UTC

Let us help you advertise it!

➔ Fill the survey by 31 March.

The image shows a survey form titled "Education and Training 2021 EU Polar Cluster". At the top, there is an illustration of a wooden bookshelf with several colorful books and a pair of glasses. Below the illustration, the title "Education and Training 2021 EU Polar Cluster" is displayed. The form contains the following text: "EU Polar Cluster - Education & Training Task Group is seeking your input. Please fill this form by 31st March 2021! Thank you, Katharina (INTERACT) & Josefine (APECS)". A red asterisk indicates a required field: "* Erforderlich". The form has four input fields, each with a label and a "Meine Antwort" placeholder: "Name and surname *", "E-mail *", "Name of Project within EU Polar Cluster *", and "Please list your planned Educational and/or Training Events in 2021 (preferably with links)". The last field has a detailed instruction: "Please provide the name, location, date and link (if available) of the event as well as contact information of the organizer".

Education and Training 2021 EU Polar Cluster

EU Polar Cluster - Education & Training Task Group is seeking your input.
Please fill this form by 31st March 2021!

Thank you,
Katharina (INTERACT) & Josefine (APECS)

Please provide the name, location, date and link (if available) of the event as well as contact information of the organizer

Calls and Vacancies

Open calls or position vacancies

DEEPICE PhD positions

The DEEPICE project, funded by the European Commission under the Horizon 2020 programme (Marie Skłodowska-Curie Actions – Innovative Training Network) calls for applications for 15 fully funded PhD positions (early-stage researcher, ESR) to be filled between July and October 2021, with attractive complementary training activities and associated research and travel budgets.

DEEPICE aims to train a new generation of scientists working on issues related to past climate change in Antarctica by taking advantage of the unique scientific dynamic of the on-going EU H2020 "Beyond EPICA–Oldest Ice Core" project (2019–2025) which aims at extracting a 1.5 million years old ice core in Antarctica.
